

A celebration of shadows

After the remaining section of "leg" was welded in place, ZigZag was carefully lowered to its Dufferin Street site in front of Carrollcroft, home of the Stanstead Historical Society's Colby-Curtis Museum. The creation of artist Kate Pond of Burlington, Vermont, ZigZag has been donated to the community and is a fine example of international and intercultural cooperation. It is expected that it will cast its long, friendly shadow for years to come.
